

Chicago Asthma Consortium’s Community Advisory Board provides a range of services for organizations and individuals interested in getting community-level feedback on asthma research, education, and advocacy initiatives. These services may range from providing one-time feedback on a tool or materials to participating in an ongoing advisory capacity.

Services include, but are not limited to:

- Feedback on evaluation and research instruments, including
 - Surveys
 - Focus groups
 - Key informant interviews
- Feedback on educational materials
- Input on community, patient and family member needs around asthma
- Serve as an ongoing Advisory Board to research studies or other asthma initiatives
- Input on research ideas

Costs for these services are based on a one-hour consultation. Multiple consultations are available if desired.
